Production-scale vacation-rental marketplace

Global, event-driven architecture for discovery, bookings, payments and reliable host–guest experiences

MULTI-REGION • AUTO-SCALING

RELIABLE DEPLOYMENT & OPERATIONS

Private source control → CI quality gates → signed artifacts → canary / blue-green deployment

Kubernetes / ECS across regions & availability zones
Horizontal autoscaling • infrastructure as code • secrets manager • disaster recovery drills

SLO-driven operations
Alerting • runbooks • audit logs
